

Boost Your Website Visibility with SEO — A Digital Marketing Student's Journey!

As a digital marketing student at Golden Institute, I've had the chance to explore and learn the most impactful strategies that help businesses grow online. One of the core components of digital marketing is Search Engine Optimization (SEO) – and through my training, I've realized the importance of both On-Page SEO and Off-Page SEO in boosting website rankings.

What is On-Page SEO?

On-Page SEO focuses on optimizing elements within your website to improve search engine rankings. This includes:

YOAST

ON PAGE SEO & TECHNICAL OPTIMIZATION

- ✓ On page optimization
- ✓ Keyword research
- ✓ Wordpress SEO
- ✓ Header optimization
- ✓ Meta tags optimization
- ✓ External Links
- ✓ Technical fixes
- ✓ Internal links

ON PAGE SEO OPTIMIZATION FOR YOUR WEBSITE

ON PAGE SEO

- ✓ On-page content optimization
- ✓ Keyword research using tools like Yoast
- ✓ WordPress SEO setup
- ✓ Header and meta tags optimization
- ✓ Internal and external linking
- ✓ Fixing technical issues

By implementing these techniques, I learned how to make websites more search engine-friendly and provide a better user experience.

What is Off-Page SEO?

While On-Page SEO happens inside the website, Off-Page SEO focuses on activities outside your website that impact your ranking:

OFF PAGE SEO

-  Blog Commenting
-  Guest Posting
-  Forum Posting
-  Video Marketing
-  PDF Sharing
-  Infographic Sharing
-  Press Releases

These strategies help build authority and increase website traffic through backlinks and brand mentions.
